Tampa, Florida 33607-1712**

November 1999

## **FOREWARD**

This report was prepared in fulfillment of the Estero Bay and Watershed Assessment being conducted by PBS&J, Inc. for the South Florida Water Management District, under Contract No. **C-7784**.

## **ACKNOWLEDGMENTS**

The authors of this report wish to acknowledge the contributions of a number of people. South Florida Water Management District staff, Terry Bray and Keith Kibbey of Lee County, David Burr and Wayne Daltry of the Southwest Florida Regional Planning Council, Johnson Engineering, Inc., the Charlotte Harbor National Estuary Program, the Florida Department of Environmental Protection, the U.S. Geological Survey, and the Florida Fish and Game Commission all provided information necessary for developing and analyzing management options.

We would also like to acknowledge the efforts of: Debra Childs for the GIS work; Anthony Janicki, Susan Janicki, and Ray Pribble for data compilation, management and analysis; and Candace Daniel for word processing support.

# TABLE OF CONTENTS

FOREWARD .....	i-1
ACKNOWLEDGMENTS .....	i-2
1.0 INTRODUCTION .....	1-1
1.1 Background .....	1-1
1.2 Study Area Characteristics .....	1-2
1.3 Watershed Problems .....	1-4
1.4 Management Options .....	1-8
1.4.1 Corrective Options .....	1-8
1.4.2 Conservation Options .....	1-9
2.0 PRIORITIZATION OF BASINS .....	2-1
2.1 Basin Priority Objectives .....	2-1
2.2 Urban Runoff Discharge .....	2-2
2.3 Agricultural Runoff Discharge .....	2-4
2.4 Total Suspended Solids Loading .....	2-4
2.5 Total Nitrogen Loading .....	2-6
2.6 Total Phosphorous Loading .....	2-7
2.7 Point Source Discharges .....	2-8
2.8 Overall Basin Prioritization by Aggregated Criteria .....	2-9
2.9 Wetlands at Risk .....	2-10
3.0 PRIORITY TERTIARY BASINS .....	3-1
3.1 Hendry Creek - 10 Tertiary Basin .....	3-1
3.2 Hendry Creek - 8 Tertiary Basin .....	3-2
3.3 Ten-Mile Canal - 11 Tertiary Basin .....	3-3
3.4 Mullock Creek - 4 Tertiary Basin .....	3-4
3.5 Hendry Creek - 6 Tertiary Basin .....	3-5
3.6 Hendry Creek - 9 Tertiary Basin .....	3-6
3.7 Ten-Mile Canal - 4 Tertiary Basin .....	3-7
3.8 Ten-Mile Canal - 9 Tertiary Basin .....	3-8
4.0 MANAGEMENT OPTIONS .....	4-1
4.1 Management Options and Ecological Uncertainty .....	4-6
4.2 Regional, Surface Water Treatment Facilities .....	4-7

---

4.3	Demonstrating Concurrence with Load Reductions .....	4-9
4.4	Greater Treatment and Attenuation .....	4-9
4.5	Mullock Creek Subbasin Complex .....	4-9
4.6	Imperial River Subbasin .....	4-13
4.7	Wetlands at Risk .....	4-16
4.8	Summary .....	4-18
5.0	REFERENCES CITED .....	5-1

## LIST OF TABLES

Table 1.1.	Acres and percentage of watershed for the nine secondary basins in the Estero Bay Watershed. ....	1-4
Table 2.1.	Relative ranks of the top 25% of the tertiary basins within the Estero Bay Watershed for area-weighted urban runoff discharge. ....	2-3
Table 2.2.	Relative ranks of the top 25% of the tertiary basins within the Estero Bay Watershed for area-weighted agricultural runoff discharge. ....	2-5
Table 2.3.	Relative ranks of the top 25% of the tertiary basins within the Estero Bay Watershed for area-weighted TSS loading. ....	2-5
Table 2.4.	Relative ranks of the top 25% of the tertiary basins within the Estero Bay Watershed for area-weighted total annual nitrogen loading. ....	2-7
Table 2.5.	Relative ranks of the top 25% of the tertiary basins within the Estero Bay Watershed for area-weighted total annual phosphorus loading. ....	2-8
Table 2.6.	Number of domestic and industrial point sources within each secondary basin. ....	2-9
Table 2.7.	Relative ranks of the top 25% of the tertiary basins within the Estero Bay Watershed for area-weighted overall rank. ....	2-11
Table 2.8.	Area of priority basins and percent of total priority basin area within each of the secondary basins. ....	2-12
Table 2.9.	Relative ranks of the top 25% of the tertiary basins within the Estero Bay Watershed for wetland area at risk. ....	2-12
Table 3.1	Land use in the Hendry Creek - 10 tertiary basin. ....	3-2
Table 3.2.	Land use in the Hendry Creek - 8 tertiary basin. ....	3-3
Table 3.3.	Land use in the Ten-Mile Canal -11 tertiary basin. ....	3-4
Table 3.4.	Land use in the Mullock Creek - 4 tertiary basin. ....	3-5
Table 3.5.	Land cover in the Hendry Creek - 6 tertiary basin. ....	3-6
Table 3.6.	Land cover in the Hendry Creek - 9 tertiary basin. ....	3-7
Table 3.7.	Land cover in the Ten-Mile Canal - 4 tertiary basin. ....	3-8
Table 3.8.	Land cover in the Ten-Mile Canal - 9 tertiary basin. ....	3-9
Table 4.1	Management options for water quality and runoff problems in the Estero Bay Watershed. ....	4-2
Table 4.2.	Management options to address wetlands at risk in the Estero Bay Watershed. ....	4-5
Table 4.3.	Conceptual decision matrix for determining an appropriate management response to detected ecological change. ....	4-7
Table 4.4.	A comparison and evaluation of three Mullock Creek Subbasin Complex	

	corrective management options. ....	4-11
Table 4.5.	A comparison and evaluation of three Imperial River Subbasin	
	corrective management options. ....	4-15
Table 4.6.	A comparison and evaluation of three conservation management options. . .	4-17
